

Ancient Egyptians, Grand Canyon

<https://sites.google.com/site/ancientegyptiansinamerica/ancient-egyptians-grand-canyon>

This Egyptian Tunnel City was named Kincaids Cave for G.E. Kincaid who first entered the Cave when he was working for S. A. Jordan.

This Picture is the entrance to Powells Cave in the Grand Canyon.

This Cave was named Powells Cave because John Westly Powell discovered the Cave .

John Westly Powell wrote in his report to the Government which he also Published in a Book.

In this Canyon, great numbers of Man made Caves are hollowed out.

I first walked down a gorge to the left of a Cliff and climbed to a Bench of

G. E Kincaid served in the Marine Corp. After retiring he worked for S. A. Jordan as a Archaeologist.

S. A Jordan was sent to the Grand Canyon by the Smithsonian Institute to investigate the information that was reported by John Westly Powell.

The Tunnel is presently on Cliff Wall 395 feet above the present flow of Colorado River in the Grand Canyon. Archaeologist estimate the Man Made Cavern is around 3,000 years old.

The Man made Cavern is over Five Hundred feet long and has several cross Tunnels to large Chambers.

This was the lowest level and last Egyptian Tunnel City they built in the Grand Canyon.

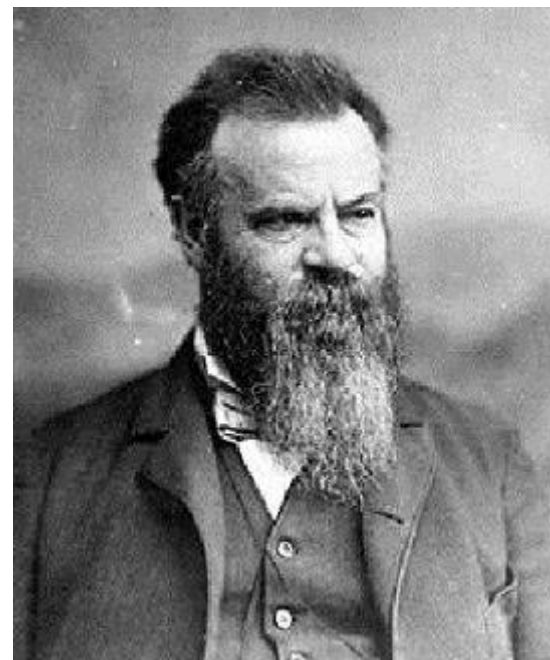

Since the time that this Egyptian Tunnel City was made, Archaeologist

the Cliff.

There was a Trail on the Cliff Bench that was deeply worn into the Rock Formation.

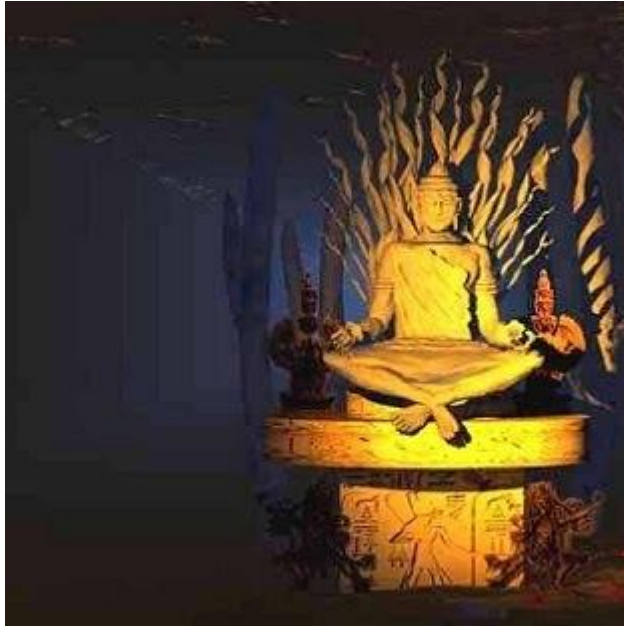

Where the Trail crossed some Gulches some Steps had been cut. I could see no evidence that the Trail had been traveled in a long time.

I returned to our Camp about 3:00 PM and the men had found more Egyptian Hieroglyphics on Cliff Walls near the Cave.

See [Ancient Egyptians in America, Discoveries](#) for more information about John Westly Powell.

estimate the Colorado River has eroded another 300 feet lower.

This is a Gold Artifact for the Egyptian King named **Khyan, Khian** or **Khayan** was found in the Egyptian Tunnel City in the Grand Canyon

The Egyptian Shrine is holding Egyptian Lotus Flowers in both Hands. Lotus Flowers originated as Native Flowers in Egypt.

The Egyptian Shrine was in the first cross Tunnel in the Tunnel which was in the exactly the same location that the Shrines were in the Valley of the Kings Tunnel Cities were Egyptian Kings lived, before the Kings of Ancient Egypt began to build Pyramids and above ground

Smithsonian Archaeologist have studied the Egyptian Hieroglyphs on the Walls to this Man made Cave and they are identical to the Hieroglyphs for some Kings in Egypt.

The additional Egyptian writings has more additional information than was previously known about these Egyptian Kings also.

This Shrine is in Powells Cave. He is holding a Egyptian Lotus Flower in one Hand.

John Westly Powell wrote, we explored the Cave and found this Shrine and other Artifacts. That evening I sent a team member to notify the Smithsonian Institute of

Cities in Egypt.

The Archaeological meaning of the power Beams radiating to the Hieroglyphic symbols for the Ancient Kings Hieroglyphic Symbols

means **Khyan, Khian** or **Khayan** was a powerful King in Egypt.

Khyan, Khian or **Khayan** was recorded as a Decendent of Zaphnath or (Joseph) that was the King of Egypt from 1610 to 1580 at Avaris Egypt where King Zathnath ruled Egypt from also.

All Kings and Pharaoh's had different Egyptian Hieroglyphs for symbol identification.

Both the Symbol and name of Khyan is on the base of his Shrine.

The top symbol on the the Base of his Shrine in the left side top of his center Hieroglyph is the Hebrew Semitic Son of the Right Hand that meant first born Son.

Then in the Center of the Base is the Hieroglyphic symbol for Khyan with his power beams and he is holding the Staff of the Lord in one Hand.

There is no doubt about the identification for Khyan or that he was a decendent of King Zaphnath in

our discovery.

We continued to Survey the Canyon and discovered more Egyptian Tunnel Cities.

I estimate in my Report that I think that upwards of 50,000 Egyptians had inhabited the Grand Canyon at one time.

This Shrine was identified as a Shrine for Seteprene sometimes spelled *Smenkhare Seti* or *Smenkare*.

King Seteprene was King Akhenaten's Son that began his Rule in Saqqara Egypt in 1336 BC but only lasted 10 Years which was when he died on his last trip to Saqqara Egypt.

This may be the reason that his Shrine was not ever covered with a hammered Gold Sheet of thin Gold.

Egypt who was (Joseph) in the Bible.

King Kyan sat on the Throne of his Ancestor King Zaphnath at Aravis Egypt also.

The Egyptian Urnes found in Powells Cave in the Grand Canyon are now on display at the Smithsonian Institute at Washington DC.

This Gold Tablet that was recovered from the Egyptian Tunnel City in the Grand Canyon was a History Book including names that began with King Zaphnath coming to Aztlan and the information for his decendent King Khyan coming to the Grand Canyon.

On the left bottom of the Artifact is (^II) symbol for the 2nd Land of Egypt named Memphis by King Zaphnath.

On the top left is (F) which meant (F+amily) in the Armenian Semitic

This Diagram was a important discovery for the Smithtonian Archaeologist who were exploring the Powells Tunnel in the Grand Canyon.

This is a Diagram for Egyptian Writing System when the Ancient Egyptians came to the Grand Canyon.

Language that He Spoke.

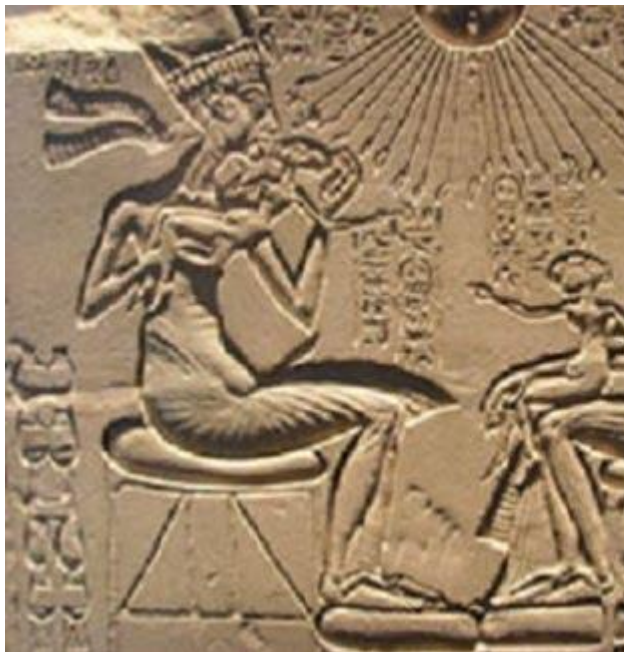

More history for Aztlan was on the back side of the Gold Artifact

It was a School Tablet used for teaching Egyptian Children to Read and Write.

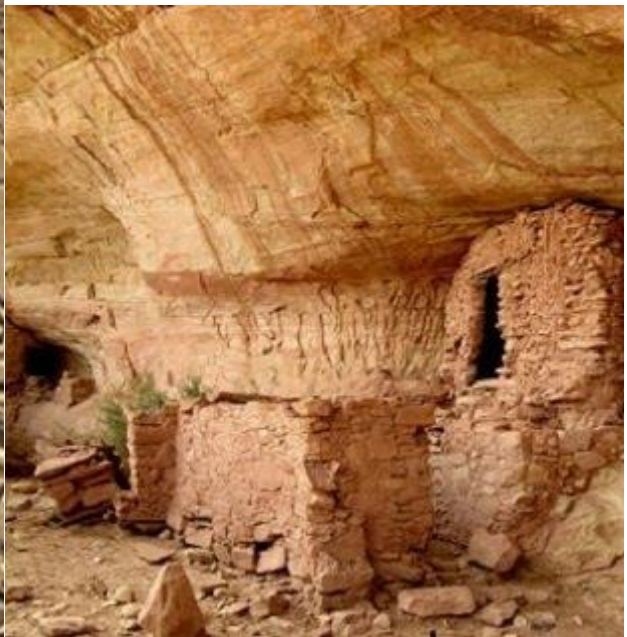

The Animal and Bird Symbols were used to describe the Ranks of the Kings on the Egyptian Hieroglyphs carved into the Cliff Walls of the Grand Canyon.

It is interesting to note the Rectangle Box on the top 2nd Row from the left is the Hebrew Ark of the Covenants symbol.

And then lower in the same Row is the Box without a bottom which was the Hebrew Son of the Right Hand symbol.

This Artifact was from

When the Egyptians came to the

Kincaid's Tunnel.

Even though the many large other smaller Images were found in the Tunnel in the Grand Canyon, this Artifact was a important discovery for Smithsonian Archaeologist.

It is a Artifact is for King Akhenaten and Queen Nefertli. Their Ancestor's and Children's names are on the Artifact.

The Egyptian name of Zaphnath or (Joseph) is one of their Ancesters.

It is recorded that Akhenaten restored the Semitic Religion of Amon in Egypt at Saqqare Egypt.

Akhenaten was the recorded Ruler in Egypt from 1353 to 1336 BC.

His son Seteprene was also a Egyptian Ruler in the Grand Canyon and was recorded as a King at Saqqara Egypt also.

This Egyptian information means that Egyptian Kings came to the Grand Canyon at various times but also made return trips to Egypt.

Grand Canyon around 1700 BC they began building Tunnel Cities in the Vermillion Cliff Walls into the North Rim of the Grand Canyon.

The Egyptians first selected overhangs that had Balconies so the Kings could walk to edge of the Plataeu Balconies and look at the Farming and Mining that was located at lower levels of the Grand Canyon.

The Egyptian Kings had their Egyptian Hieroglyphic Symbols on the Canyon Walls around their Tunnel Cities and on the Grand Canyon Cliff Walls.

The Kiabab Plataeu is around 8,000 feet above the present flow of the Colorado River in the Grand Grand Canyon.

These Gold Artifacts from Kincaid Tunnel are the only Artifacts on display in the Smithsonian Institute at Washington DC. from the Grand Canyon.

The back Two Artifacts are for Artifact King Akhenaten and Queen Nefertli.

These Cliff Walls were the Top Cliff Walls that were above the large Kiabab Plataeu of the Grand Canyon.

All of the Egyptgian Temples are are on the North side of the Grand Canyon also.

This Artifact is from Kincaids Tunnel in thr Grand Canyon.

This Artifact found in the Egyptian Tunnel City in the Grand Canyou was identified as being a Artifact for King Aperanat who sat at Saqqara Egypt also.

In Egypt, King Aperanat was known as the powerfull King that Ruled Foreigners also.

The Kiabab Plataeu of the Grand Canyon. In Areas of the Plataeu Water slowly seeps into the open Grass Meadow Lands to keep the Fertile Soil Moist.

We have estimated that it would be easy to Grow enough Food in the Moist Grass Lands to feed at least 500,000 People.

The estimate for the Number of Egyptians that were in the Grand Canyon is 50,000 People.

It is likely that whatever extra Food that was grown in the Kiabab Plataue was exported to Egypt.

This Copper Statue in Kincaids Tunnel in the Grand Canyon was identified as a Shrine for Anubis. It is impossible that he was ever in the Grand Canyon.

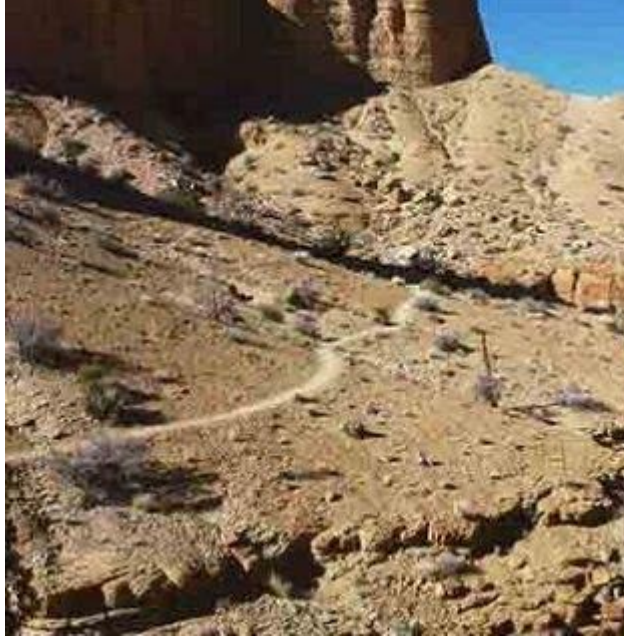

Anubis was a famous Egyptian Embalmer that beleived in a after life.

The Walhalla Ruins. These Ruins in the Kaibab Plateau of the Grand Canyon are being Excavated.

Because of the Plundering of Artifacts even by Smithsonian Archaeologist,

FBI Agents attend Excavating Teams in the Grand Canyon and now at all Sites in the United States.

The original Seth Tanner Trail is still a popular Tourist Trail in the Grand Canyon.

Grand Canyon National Park was named an official National Park in 1919.

The National Park Service has a Policy of preserving the History of Native American Indians when establishing Parks.

They lived on the North Kiabab Rim of the Grand Canyon where the Egyptian Pyramids are located.

And they knew the names of the Egyptian Pyramid Temple names that are located under the North Kiabab Rim of the Grand Canyon.

The Egyptians Mined Copper, Silver, and Gold from the Grand

The Hopi Indians have a God named Taawa. He has a Mans Face that smiles all of the time and has a good

Canyon. There are many Ruins of Egyptian Metal Smelters and Furnaces in the Grand Canyon.

These Metal Smelters and Furnaces are located on the Second Plateau of the Grand Canyon and there are several Mining Tunnels and Egyptian Tunnel Cities in the Cliff Walls of Second level Grand Canyon Plateau.

Even though the Isis Temple in the Grand Canyon is now badly eroded, a few of the Ancient Egyptian Hieroglyphs can still be seen on the Cliff Walls of the Temple.

The Temple also has a obvious Entrance, but only a few feet into the Temple the Entrance is closed.

The National Park Service will not allow any excavations of the Pyramid

Heart.

The Hopi Indians still use a large number of original Egyptian words in their Language.

Seth Tanner a Mormon who lived in the Grand Canyon with the Hopi Indians was the translator for the Hopi Indians. He had two Hopi Indian wives.

He said the Hopi Indians were Mormon Christians that called themselves the People of One Heart. He was their Pastor and a Farmer.

Temples.

This small Gold Artifact was found in Kincaids Tunnel. This Artifact for Iris is currently on display in the Smithsonian Institute at Washington DC.

[The Egyptian Legend for Iris the Goddess of Power and Love]

She was the First Daughter of Gad, who was the first God of Earth in Egypt.

Her Heart was full of love. The Hearts of her Love are on the Base of this Image of her.

The Tower of Set, actually the (Seteprene) Pyramid was named by the Hopi Indians.

The Tower of Set, was the First Pyramid to be built in the Grand Canyon as a burial Tomb for King Seteprene that came to the Grand Canyon.

All of the Egyptian Hieroglyphs have eroded off of the Pyramid.

The Set Pyramid has Rectangle Shape similar to the first Pyramids in Egypt.

This Gold Artifact from Kincaids Tunnel is for Amaunet the Secret One.

[The Egyptian Legend for **Amaunet** the the Secret One and the Goddess of the Heaveans;]

Amaunet laid big Egg that shined like Gold. This was the first Sun light in Egypt.

Then Amaunet saw that she had Wings and flew from the Heavens to Egypt and then everybody in Egypt knew who Amaunet was and Amaunet was no longer Amaunet the Secret One.

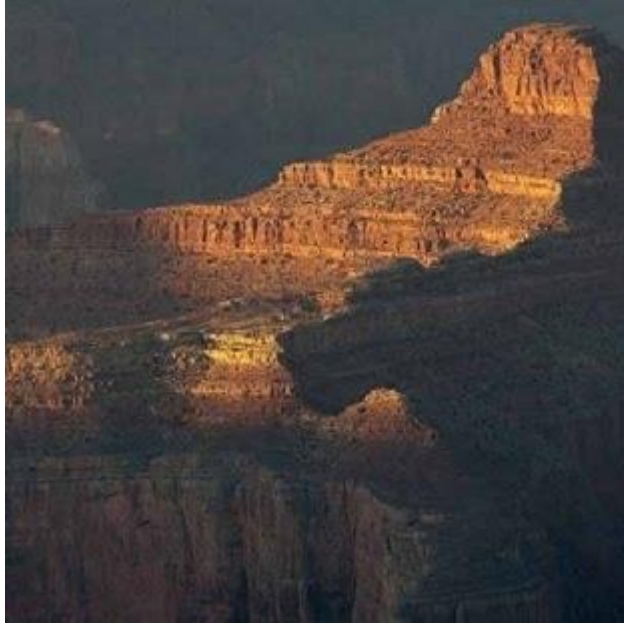

Zoroaster Temple in the Grand Canyon was named by Hopi Indians.

[The Egyptian legend for Zoroaster.]

Zoroaster was in Egypt when times were hard and Egypt was becoming a Poor Nation.

But Zoroasters first name had been (Joseph) because he had a

God that was higher in the Heavens than their Sun God named Ra that knew what the Pharaoh's dream meant.

He built a big Boat that had Wings (Sails) that would carry many People and found more Grain and Gold for the Egyptians.

When he came back to Egypt in his Boat loaded with Gold, Grain, the Pharaoh made him the Ruler of Egypt and called him *Zaphenat-Pa'aneah*.

The Hopi Indians told Grand Canyon Park Rangers that this was the Tower of Ra.

And Pharoah was like a Father to King Zaphnath Paaneah.

Only a few eroded Egyptian Hieroglyphs can still be seen on the Tower of

Ra.

The Smithsonian Archaeologist think that that this unfinished Egyptian Pyramid in the Grand Canyon is a burial Tomb because there is a entrance Tunnel that is blocked a few feet inside the Pyramid..

But the National Park Service will not allow the Archaeologist to excavate any of the Pyramids in the Grand Canyon.

The Egyptians Built some large Entertainment Centers in the Grand Canyon.

The Buildings had Wood Roofs that are no longer on the Buildings.

These Entertainment Centers had large Feilds for Foot Races and Games and had Shower Rooms and Homes for the Different Athlete Teams.

The centers also had large Theaters for Musical Concepts and Kitchens to prepare Meals for the Egyptian Kings, Athletes, and Musicians.

The Tunnel Complex that Mr. G. E. Kinkaid found was a Burial Chamber

The Mummies were placed in the Burial Chamber Walls on large Stone Blocks.

The Egyptians began coming to the Grand Canyon according to the Carbon Dating of the Mummies Bones.

The Carbon Date for the oldest Mummy was around 1600 BC.

One of Crips was opened in the Grand Canyon to see if there were Mummies in them before they were sent to the Smithsonian Institute Storage Building.
